

**Submission by Dr Colin Hunt, Honorary fellow in Economics, University of Queensland,
to the Independent Review Coals Seam Gas in NSW by the Chief Scientist, at:**
<http://www.haveyoursay.nsw.gov.au/consultations/independent-review-coal-seam-gas-in-nsw/?date=2013-03-20>

7 April, 2013

Please include in the Review:

- A review of the latest scientific findings on the global warming potential of CSG (mainly methane).
- The cumulative impacts of fugitive emissions of CSG in NSW on Australia's emissions (in terms of CO₂e), based on the latest scientific findings on the global warming potential of CSG.
- The area and number of agricultural properties potentially affected by drawdown on aquifers by the CSG industry.
